

Johnny R

Mickey's Song *"Nine Lives Wasn't Enough"*

(Goodbye Friend)

Verse 1

You were waiting by the window sunlight in your eyes
Nine years went so quietly didn't know goodbyes
Every step behind me every night you'd stay
Never thought a broken road would take you far away

Pre-Chorus

I called your name in empty rooms still expect your sound
Half of me is listening for footsteps not around

Chorus

Nine lives wasn't enough for you or maybe just for me
You were my whole world in ways no one can see
Now the house is just a memory echoes in the dark
You didn't just leave quietly you took my only heart

Verse 2

Little shadows chasing light beams falling on the floor
You made lonely disappear like it was before
I still leave the door cracked open like you might come through
Guess I never learned a world that doesn't have you

Bridge

They say you had a good life every day was warm
But no one tells you how it breaks when safe turns into storm

If there's a place beyond this where quiet hearts can run,
I hope you're chasing sunlight there like you always done

Final Chorus

Nine years felt like forever but forever wasn't true
I had a lifetime in your eyes and all of it was you

If love could change the ending or stop a rolling car
You'd still be here beside me not just a fading star

Outro

Goodnight my only friend run free where you are
Nine lives wasn't enough, but you'll always be my heart
